**Killed in action

*The Selectmen and Town Clerk have tried conscientiously to make the above list as near correct as possible. If there are omissions, it is because names have not been reported to the proper officials as requested from time to time. If you know of anyone in the service whose name does not appear above, will you please notify the Town Clerk at once. In view of the fact that officials were unable to obtain a complete list of those missing in action and prisoners of war it was deemed advisable to omit same until such time as such names are released by the War Department and brought up to date.

THE DIVISION OF MUNICIPAL ACCOUNTING

of the

STATE TAX COMMISSION

DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION

Concord, New Hampshire

Board of Selectmen
Hudson, New Hampshire

October 26, 1943

Gentlemen:

Submitted herewith is the report of an audit and examination of the accounts of the Town of Hudson, which was made by the Division of Municipal Accounting of the State Tax Commission in accordance with the vote of the town. This audit covers the fiscal year ended January 31, 1943, and the current year from February 1st to August 25th, 1943.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Selectmen, Treasurer, Tax Collector, Town Clerk, Road Agent and Trustees of Trust Funds.

FINANCES

Indebtedness, Valuation and Taxes:

An improvement in the financial condition of the town amounting to $13,063.57, was made during the year ended January 31, 1943, which resulted in the change from a Net Debt of $5,852.94, on January 31, 1942, to a Net Surplus of $7,210.63, on January 31, 1943. This improvement in financial condition was accomplished by means of—

(1) Budget Surplus of approximately - $6,000.00
(2) Reduction of bonded debt - $6,400.00
(3) Added taxes of approximately - $ 700.00

The assessed valuation of property increased during the current year (1943) by $66,000, and the total tax levy was $8,900 less than in 1942. This resulted in a reduction in the tax rate from $4.40 per hundred in 1942 to $3.85, in 1943. The average tax rate for the state in these two years was $3.23 and $3.03, respectively.

Revenues, Appropriations and Expenditures - 1942:

An excess of actual over estimated revenues of $1,508.30, and a net unexpended balance of appropriations of $4,490.64, resulted in a net budget surplus for the year amounting to $5,998.94.

AUDIT PROCEDURE

The accounts and records of all town officials who are charged with the custody of and who receive or disburse public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks.

TAX ACCOUNTS

The balances of uncollected and unredeemed taxes from warrants originally committed to former tax collector Laura M. Miller, were transferred to the present collector as of the date of audit, August 25, 1943. Verification of outstanding property tax accounts was made as of like date by notices sent to all delinquents as indicated by the collector's records.

The present tax collector should secure a surety bond to cover the collection of the accounts transferred to him from the former collector. This bond to read "for the collection of balances of uncollected and unredeemed taxes on account of the levies of 19...., 19...., 19...., etc."

There are still unredeemed balances from the tax sales on account of the levies of 1935 to 1940, inclusive. These accounts should be carefully examined by the Board of Selectmen and Tax Collector and a decision made as to whether deeds may be taken by the town in cases when the original sale was in order or abatements made where there were apparent irregularities in connection therewith.

The poll tax lists transferred from the previous collector should likewise be examined and any taxes appearing thereon which appear at the present time to be uncollectible should be abated.

When property is deeded to the town by the Collector, any unredeemed taxes on account of sales held subsequent to the sale on which the deed is given, should be designated as "deeded property" on the tax sales records and no longer included as an asset item in the balance sheet.

All expenses in connection with the advertising and sale of property at a tax sale should be paid in the first instance by the tax collector, including register of deeds' fees, postage, etc. Immediately following the tax sale each year a voucher, order and check should be issued to the tax collector for the amount of taxes bought by the town, including the actual amount of all taxes sold plus interest at 10% from December 1st to date of the sale. This check is remitted to the treasurer to be credited to the tax warrant and interest collected thereon.

A second voucher, order and check should be issued to the collector to reimburse him for expenses paid by him incident to the sale and to compensate him for fees which the law entitles him to.

ROAD AGENT

Inasmuch as the road agent is charged with the receipt and disbursement of town funds, it is recommended that he furnish a surety bond as required by Section 10, Chapter 96 of the Revised Laws of New Hampshire.

GENERAL COMMENTS

With exceptions as herein noted the accounts of all town officials were found in good condition and the accounting procedure conformed to the uniform system prescribed by this Division.

In accordance with the provisions of Section 31, Chapter 211, of the Laws of 1939, this report or a summary of its essential features should be published in the next annual town report. This letter of transmittal should be included in its entirety, but the inclusion of schedules is optional.

We extend our thanks to the officials of the Town of Hudson for the assistance rendered and information furnished while we were engaged in making this audit.

Yours very truly,

Harold G. Fowler

REPORT OF THE

HUDSON

PLANNING BOARD

ANNUAL REPORT OF THE HUDSON PLANNING BOARD

The Hudson Planning Board for the year 1943-44 is as follows:

STAFFORD HILL —Term Expires 1944
WEBSTER W. WHITE —Term Expires 1945, Chairman
PAUL W. BUXTON —Term Expires 1946, Secretary
J. AMEDEE PAUL —Term Expires 1947
ARTHUR W. SMITH —(Selectman)
GEORGE W. HARDING—(Unexpired term of Webster W. White)

The Planning Board of the Town of Hudson submits the following for its annual report for the year ending January 31, 1944.

At one of the regular meetings held last spring the problem of finding a new and suitable location for a town dump was brought to the attention of the Board as the present location is rapidly becoming inadequate and unsuitable because of space, sanitary, and other reasons.

At subsequent meetings, discussions of proposed locations and their availability were considered and through a process of elimination, by viewings and the refusal of land owners to sell, have left one place available if certain terms could be met.

Several cases concerning the non-conforming use pertaining to the Zoning Ordinance were considered and disposed of in a satisfactory manner.

At the present time correspondence is being carried on with the State Planning and Development Commission in which it is hoped to bring about a satisfactory solution to the post-war problems which it is anticipated we will be forced to face.

It is hoped that in the near future a plan will have been worked out for an economical method of the collection of rubbish in the congested parts of the town.

It is recommended that a suitable sum of money be appropriated and paid to the Building Inspector to cover the costs of making inspections and to better enable him to perform the duties of his office.

It is further recommended that the Town begin setting aside, by appropriations, certain sums of money which would be earmarked as a definite part of a fund for the replacement of obsolete or worn-out equipment which will be a necessity in the near future, such as fire equipment, police or road equipment.

It is further recommended that the Town sponsor a program of street beautification by the planting of maple shade trees on land now owned by it in the compact part of the town.

Respectfully submitted,

George W. Harding Ch.*
Stafford Hill
Arthur W. Smith

Paul W. Buxton, Secretary
J. Amedee Paul

TRUSTEES' REPORT

On June 20, 1944, the Library will have been in operation for fifty years. A detailed summary of the principal events in its history during that time was given in the report of last year.

The portrait of Joseph Greeley was received from the executor of the will of William T. Bailey, M.D., but he was unable to find the portrait of Mrs. Greeley. It is probable that Dr. Bailey disposed of it by gift prior to his decease.

Report of the School Board

Hudson, New Hampshire
February 18, 1944

The problems involved in the maintenance of our schools have become increasingly difficult to solve. It has been our earnest desire to hold a high standard of efficiency in operation. Extra burdens have fallen on our Superintendent and teachers in supervising pupils in the janitorial care of two of the buildings. The pupils seem to have benefited, not only by the pay which they have received, but also in appreciation of the labor involved in keeping their school building clean.

Particular items of repair and improvement which have been made include weather stripping of windows and doors in the Center School, replacing the dangerously worn floor in the hallway of the Center School. A board walk from the street to the front steps at the Center School has helped to bridge the mud. The manpower shortage has held up progress on the grounds at the Junior High School. Some trees have been placed. Some loam has been made available by Mr. J. A. Robinson and this will be applied when a labor supply is possible to obtain. The exterior woodwork on the Junior High Building received its first application of paint since construction.

At long last the backstop on the ball field at the Junior High School is in place. Appreciation and thanks are due and here offered to those who spent so liberally of time and energy in the project. Among them we would particularly mention Arthur Fuller, Chairman of the Town Recreation Committee, Joseph Fuller, Highway Agent, Joseph Boulanger, Paul Richard, William Egley, and the Junior High School boys.

In the interest of long term economy as well as comfort, we would urge that all the buildings be insulated.

Respectfully submitted,

HERBERT W. CANFIELD
MILDRED M. FULLER
DOROTHEA S. CRABTREE

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Hudson, New Hampshire
February 18, 1944

To the School Board and Citizens of the Town of Hudson:

I herewith submit my third annual report as Superintendent of Schools:

The school program has been carried on, in so far as possible, in the regular way throughout the year. We must admit that war conditions in the community and country as a whole have had their effect. There has been some feeling of unrest in the schools due to working conditions in so many of our homes, especially in the homes where both mother and father are working on different shifts.

We have had to use the Truant Officer to enforce school attendance much more this year than in normal times. A larger number of children are leaving school when they reach the age of sixteen than has been the case in the past few years.

Many children in the upper grades especially, have felt the necessity of staying out of school to work at home or to help some near-by farmer harvest his crops. We have tried to keep in touch with this situation and in cases where it seemed necessary for a boy or girl to do work that would otherwise not be done, we have excused them and given them a chance to make up the school work later. This is in accordance with the general practice throughout the state of New Hampshire.

The transportation system has had to be re-arranged and the compensation of all carriers has been increased. We look forward to a further increase in the cost of transportation for next year. In one case, a route had to be lengthened to provide transportation for handicapped children.

We have been able to solve our teacher problem by suspending the married teacher rule. To this end we have been fortunate in securing the services of married women of several years' teaching experience. The number of experienced teachers is larger this year than in a normal school year. We will have to continue this policy for the duration of the war.

It has been impossible to secure a full time janitor. Under the supervision of teachers, pupils in all schools have done the daily cleaning and other necessary work about the buildings. For special cleaning and some minor repairs we have been able to employ junior high and high school boys who have done very satisfactory work. The heating plants have been cared for by William Egley and Carl Oliver. The superintendent has had to assume considerable care of these different projects. While he would not recommend this system for normal times it has been of great advantage both to pupils and to the schools as an emergency war-time measure.

The junior High principal, Mrs. Celia Donovan, because of ill health has had to take a leave of absence for the remainder of the present school year. This of necessity has made necessary some adjustment of the junior high work. Miss Barbara Fuller will carry on in Mrs. Donovan's place for the present. The continuation of Manual Training in the junior high for next year is very doubtful. Paul O'Neil who has filled the position for two years will probably be called for military service.

The junior high school was used during the summer for a canning project sponsored by the Federal Government. Mrs. Esther French was employed as teacher of this summer school. All expenses and equipment were paid for from Federal funds administered through the State Department of Education. If there is sufficient demand, this project may be continued either during an evening session or as regular summer school.

In closing I wish to thank the School Board, teachers and all others who have contributed so generously of their time and thought to the school during the past year.

Respectfully submitted,

GAIUS H. BARRETT,
Superintendent of Schools

The first grade pupils were given a thorough physical examination in the fall. The Junior High pupils were also given one to determine whether or not they could participate in active sports at the school. These examinations were given by our local physician, Dr. John Quigley.

The audiometer test was given to pupils from the second grade up in November. Lip reading instruction is given to all pupils who were found to have a hearing loss.

The hot lunch and milk program are still carried on in the Junior High and Webster Schools. These programs are a great asset to the health of the children.

I appreciate the cooperation given the health program by the parents and teachers.

Respectfully submitted,

HELEN J. HOUSE, R.N.
School Nurse

Home Food Production

Patriotism, prudence, and protection of health combine to urge that in 1944 every family produce and preserve for home consumption as much of the family's yearly food supply as possible. Home food production will assure our own food supply, will release more foods for the armed forces and lend-lease, will help meet the national goals, and will relieve transportation, labor and equipment shortages.

To help families with their plans for food production and preservation at home, the University of New Hampshire Extension Service lists the following free bulletins for your use:
